The Lunar Node and Master Cycles

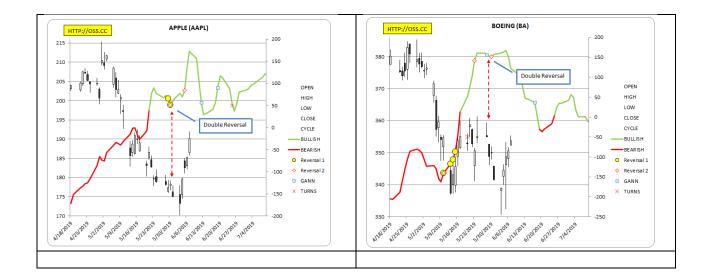

The Lunar Node bottomed on 5/27/19. The Master Cycle bottoms on 6/10/19. The mid-point was 6/3/19, and stocks took-off.

Double and Triple Reversals

These are trade signals. Take the trade when a candlestick reversal formation occurs near a Double or Triple Reversal.

OSS Indicator Calendar

These were my comments. I was wrong on the latter part of the week being Bearish, but got the predicted higher close on Tuesday right. That was worth a 100% gain on some Nadex US 500 options.

Beginning of week is Bullish. Latter part is Bearish. Monday stock indexes were mixed. The major influence for the day was two Bearish Moon aspects.

The only aspects on Tuesday are two Bullish Moon aspects. Expect a higher close.
